The Union Pacific is going to provide emigrant sleeping cars without increase of rates.

Although kept flat on his back by rheumatism for several months, Garibaldi is now able to take a daily walk on crutches in the open air at Caprera.

A French veterinary surgeon has discovered that vaccination may be usefully applied to dogs. It apparently prevents the development of those diseases that in many cases prove fatal to pups.

There are great complaints as to the increase of drunkenness in Italy, where for three years there has practically been free trade ih public houses, and the revival of former restrictions is demanded.

A furious termagant of eighteen, servant to an old lady in Paris, was in such a rage that, after nearly strangling her mistress, she endeavored to throw her out of the window, and would have succeeded had not a neighbor come to the rescue.

Experiments have recently been made in England as to the maximum speed that a skater can attain. Mr. Tish Smart, one of the champion skaters of the world, has made twelve miles in 28½ minutes. This nearly represents the time made by the best biciclists.

The fastest time ever made by a freight train between St. Louis and Texas has just been accomplished. There were twenty cars, with a thousand kegs of lager beer. Galveston and other Texas cities had run out of beer, and were thirsty; hence the hurry.

The city of Tolouse, France, can boast of a centenarian actor in the person of M. Gaffetot, who, born July 2, 1780, made his debut on the stage at 15, and still regularly appears before the footlights. This veteran of 85 years' stage experience is said to be an excellent comedian.

Lulu Frayne, of Hosford Plains, Ga., deemed herself unfit to live, but had not quite made up her mind to commit suicide. So she provided herself with arsenic, and went to hear a sermon on morality, intending to judge herself by the preacher's standard. He was very severe in his denunciation of sin, and before he was done Lulu swallowed the poison. However, her life was saved.

Not more than one out of every one hundred head of game brought to the markets of St. Petersburg and Moscow is shot. The others are trapped. Each peasant has a path in the forests, which is considered his especial property. This path is sometimes as much as thirty miles long; and on each side traps of all sorts and sizes are set, and wolves, foxes, martens, sables, badgers, hares, squirrels, rabbits, partridges, quail and grouse are caught in great numbers. As it often happens that the owners of the traps do not visit them for weeks, game perishes without benefit to any one.

PRESIDENTIAL PREFERENCES.

The New York *Tribune* has taken great pains to ascertain the Presidential preferences of Republican voters throughout the country. Its returns show an overwhelming preponderance for Blaine. Yet there is likely to be a change of sentiment before the Chicago Convention. There is a growing party of Independent Republicans who will not support either Blaine or Grant. The "Young Republicans" of Massachusetts and the Union League of Pennsylvania have decided not to vote for either. There are spots on Blaine's record. The Springfield *Republican* has published matter about Blaine, concerning which the New York *Nation* says that if one-half of it is true, he is an unfit man for President. An extract from a letter in the Springfield *Republican* appears in another column of the GAZETTE to-day. The revelations it makes are serious, and the source from which it is taken is good authority among Republicans.

It may be that all signs shall fail this year, and the Presidential nominee of the Republican party be a man without fear and without reproach.

EDITORIAL NOTES.

The Vice-Regal Court at Ottawa, Canada, has established a system of snobbery which divides society into twenty-five grades, from the Governor General down to retired Judges. How ridiculous such artificial distinctions seem on American soil. The people of the Dominion will tire of "Vice-Regality" in time, and then will come a reaction in favor of the simplicity of Republican institutions. Everything pertaining to the Governor is at present designated "Vice-Regal." For instance, there is "the Vice-Regal sleigh," "the Vice-Regal boot," "the Vice-Regal pen-wiper," etc. What a nation of snobs this "Vice-Regality" has made of the Canadians.

Mayor Kalloch has had a falling out with Rev. Mr. Hemphill of San Francisco. Kalloch gave his clerical brother a figurative "blowing up" on the Sand lot last Sunday, and now it looks as if Kalloch's followers meant to blow up Mr. Hemphill, his church and congregation, in earnest, for a bag of dynamite cartridges has been found in the rear of the church in which Mr. Hemphill preaches.

Lest some of our exchanges should interpret seriously our local joke about the "Piute Sugar Company," it may be well to remark that the only product of the Indian sugar-cane has thus far been that saccharine substance called "taffy." From a reliable source we are informed that the Piute sugar-cane is a mere reed, about the diameter of a lead pencil, whose pith is slightly sweetish to the taste. The talk of producing sugar from it is all nonsense.

The Senate of Iowa has passed the following, which it is thought will meet with the approbation of the Assembly and become a law: No person shall manufacture for sale, or sell, or keep for sale, as a beverage, any intoxicating liquors, including ale, wine and beer. The General Assembly shall by law prescribe regulations for the enforcement of the prohibition herein contained, and shall thereby provide suitable penalties for the violation of the provisions hereof.

As was anticipated, Governor Perkins signed the California Revenue bill, and it is now a law. If the operation of some of its provisions does not thoroughly disgust the people of that state with their New Constitution, we are greatly mistaken.

Mill Creek, a new mining district about thirteen miles southwest of Bodie, is attracting the attention of mining men, and is likely to have a rush in the spring. It is a gold quartz district. The population of Mill Creek has already reached 400.

It was reported that C. C. Thomas had been tendered and had accepted the Superintendency of the Sutro tunnel. The S. F. *Stock Report* states authoritatively that though the appointment of Mr. Thomas is probable it has not yet been made.

Denis Clarke of Yarmouth, Nova Scotia, providently had an ash coffin made for himself twelve years ago, while he had means to pay for it. The coffin remained in his house until last week, when Clarke's foresight was demonstrated, for he died, and was buried in it.

Owing to the detention of a steamer it was feared that Grant had been drowned in the Gulf of Mexico, but he has arrived at Galveston all right. What a relief the news of Grant's safe arrival must be to the other Republican candidates for the Presidency.

In a billiard match at New York on Monday night, Schaffer made a run of 275 points and another of 325. Heiser, his opponent, made a run of 292. The match was won by Schaffer. Time 50 minutes. This is said to be the greatest billiard playing on record.

The Reform Club secretary would do well to keep a list of the readings and recitations that are rendered from time to time at the public meetings. Reference to such a list would prevent repetitions.

JAMES G. BLAINE.

A Damaging Story of His Connection With a Stock Jobbing Operation.

Correspondence of the Springfield Republican

Comparatively little is known here in regard to Mr. Blaine's large operations since the close of the war. That he has always been a heavy speculator is a fact which neither he nor his friends attempt to keep secret. He bought $70,000 in Maine State bonds in 1871, but his investments have been for the most part outside of the State. He has usually been fortunate in his speculations, but not uniformly so. His friends say that he has lost hundreds of thousands. The speculation in the Little Rock & Fort Smith railway, in which Blaine persuaded a large number of his Maine friends to join him, would have been a very serious matter for him, but for the fact that Tom Scott and other railroad men having measures pending in Congress when Blaine was Speaker of the House, helped him out of disaster. There are very keen memories of this Little Rock & Fort Smith affair in these parts. Mr. Blaine himself never refers to it. The matter was never understood by the parties interested here until the publication in 1876 of Mr. Blaine's own memoranda of his transaction.

The facts were that Mr. Blaine induced the Coburns of Skowhegan, the Morrills, Sanborns of Augusta, the Hazeltines and Johnstons of Belfast, Alanson B. Farwell and others to purchase through him, of Warren Fisher, Jr., of Boston, securities of the Little Rock & Fort Smith railroad, for which they paid in gross the sum of $130,000. Mr. Blaine went to each of these gentleman and told them that it was a very good thing; that he had himself invested a large amount of money, and that he recommended it to them because he wanted to put them into "a good thing." The business was to be done entirely through him. Each was to receive for every $1,000 in cash paid first mortgage bonds, $1,000 in preferred stock and $1,000 in common stock.

Mr. Blaine assured them that they were "on the ground floor" with himself. Subsequently Robert Fisher, Jr., and the enterprise broke down. Mr. Blaine astonished all his friends by handing over the $130,000 and taking all the securities back. They were exceedingly glad to get their money again, and asked no questions, but it surprised them when Mr. Blaine's account book was produced and published in 1876, to find that Mr. Blaine had never invested a cent in the enterprise, but had received from Warren Fisher, Jr., $130,000 in land-grant bonds, and an agreement to deliver $81,000 first mortgage bonds in addition, as a commission on the sale of the other securities to his Maine friends, while had they gone direct to Mr. Fisher, they would have obtained not only what Mr. Blaine gave them, but the land-grant bonds in addition. This publication created a vast amount of astonishment here, and some of the gentlemen interested have not recovered from it yet.

They say that Mr. Blaine's intimate friends promised that he would explain the matter, but he has never done so. Some of them get together once in a while and talk the matter over, and it is not difficult for them to understand why it was that Mr. Blaine was willing to get down on his knees to Mulligan to implore him not to make this secret agreement with Fisher public.

It may not be remembered that previous to this publication in 1876 Mr. Blaine had made a statement in the House of Representatives in which he said: "In common with hundreds of other people in New England and other parts of the country, I bought some of these bonds—not a large amount—paying for them at precisely the same rate that others paid." The evidence satisfied his Maine friends that he had not actually paid any money or agreed to pay any. In conversation, one of the parties induced to purchase these securities by Mr. Blaine, said to the writer: "He has never opened his mouth about the matter since. He lied to me and he ought not to be President."

What a Matrimonial Advertisement Did.

The patriarch of Buzzard's Roost, a little town within the shadow of Mt. Shasta, Cal., after seventy years of single blessedness, longed for a wife. He heard of the *Matrimonial News*, sent for a copy, and thus made the acquaintance (by letter) of a Boston widow. But he was cautious and, though evidently impressed in her favor, hesitated about taking the final step. While he hesitated Leap-Year came, and the widow, taking advantage of the fact, packed her trunks, telegraphed to the patriarch that she was going out to marry him, and started. The old man accepted the situation; they were married immediately, and are happy.

An Unfortunate Mistake.

A deaf lady living near Baltimore stopped a milkman as he was passing the house the other day, and asked him how much he charged for a quart of milk, and then put up her ear-trumpet to catch the reply. The man drew a quart of milk and emptied it into the trumpet, and the result has been that he has to go three miles out of his way to keep out of sight of the lady's son, who sits on the front porch waiting for him.

Ministerial Advice to Married Men.

Rev. Thomas K. Beecher is responsible for the following piece of advice: "If your wife objects to kissing you because you smoke, simply remark that you know a girl who will. That settles it."

All lovers of a first-class Bit Cigar come to John F. Myers' Drug Store, two doors west of postoffice. jel6

Killed by a Base-Ball.

RED BLUFF, March 22.—Yesterday the Athletics played a match game of base-ball with the Amateurs. Both of the clubs are of this place. While William Kinser, shortstop of the Amateurs, was striking, he was struck in the temple by the ball from the hands of Charles Schoe, pitcher of the Athletics, which felled him to the earth. In an hour he was brought to town and suffered intensely until 2 o'clock to-day, when he was relieved of his sufferings by death.

H. J. Pratt butchered a steer at his ranch in Clover Valley, last Saturday, that dressed 1,290 pounds. This is said to have been the largest ever butchered in Humboldt county. It was fed on alfalfa hay all Winter, and was in prime condition.

The leading watchmaker in town is Goegge, west side of Virginia Street. feb3

A Machine for Clearing Sage-Brush Land.

The Lassen *Advocate* thus describes a novel machine for clearing sage-brush land: The machine which we described last week as being used by Capt. C. A. Merrill, in clearing sage-brush from the land of the new town of Belfast, is the invention of Benjamin H. Leavitt. It is composed of two heavy blades made somewhat in the shape of a V harrow, which is upon wheels, drawn by 12 horses and is 16 feet wide in the rear, and consequently cuts a swath of that width. Mr. Leavitt is to make application for a patent on his invention, which is no doubt destined to be of great value in this part of the country, where so many thousand acres are covered with sage-brush.

The Mutton Market.

There have been no sheep in this market since Feby. 1st, something that has not happened for many years. The supply now all comes by rail from California.

Baily will arrive to-morrow with a refrigerator carload of dressed sheep for the Virginia market.

D. C. Wheeler will be here to-night with three or four carloads of live sheep. They will be sold in Reno, Carson, Bodie, and other places.

This has been a hard winter for sheep up north, which accounts for the failure of the local supply.

Eastern Brook Trout in Donner and Independence Lakes.

Says the Truckee *Republican*: A man was in town Sunday, sent here by Fish Commissioner B. B. Redding, with a large stock of Eastern brook trout to be planted in the waters about here. Two thousand were planted in Donner creek near the railroad bridge, and four thousand were sent to Independence Lake. These trout are much smaller than the general run of fish in this vicinity, and about the size of the silver trout already caught in Independence.

CANDELARIA LETTER.

Mines of Merit—The Water Supply—Cost of Working Ores—Lot Jumping, Etc.

CANDELARIA, Nev., Mch., 20, '80.

Editor Gazette:—The Columbus mining district has lately been favored with an extended notice by the *Stock Report* of San Frrncisco. The *Stock Report's* description of this district, while being in the main reliable, yet contains some statements at variance with the actual facts.

So far as is now demonstrated, there are but three mining properties of actual merit yet developed here. The Mt. Diablo have in sight in their workings from $3,000,000 to $4,000,000 which will soon see the light of day. Hoisting works are in course of erection and will soon commence raising ore, from which a bullion out-put of large dimensions is confidently predicted. Hingeing on the Mt. Diablo mine are two other properties that will, beyond a doubt, prove equally as valuable. On the west, and on the same vein, is the Metallic mine, a nonincorporated company, and on the east lies the Mountain Girl, owned by parties here, which has never been incorporated. The Northern Belle is a mine whose record speaks for itself, and whose outlook for the near future is most brilliant. The Victor mine, lying northwest of the Northern Belle, is employing quite a force of men, engaged in prospecting the ground and extracting ore, which is worked at Rhodes' mill at New Boston, twenty miles distant. This property has recently been bonded to New York capitalists for the sum of $250,000. Lying east of the Victor is the Good Faith mine, a new incorporation, owning 1200 feet on the same ledge. The Good Faith should prove equally as good a property as the Victor.

The development of this district is going rapidly forward, and it is to be confidently expected that mines of great value will be brought to light in the coming summer.

The scarcity of water for the generation of steam and other purposes, has been a serious drawback to the prosperity of the district; but a company has recently been organized to build a "V" flume for the purpose of bringing wood and water from the White Mountains. This project, when completed, will add greatly to the bullion product of the district, by giving us cheap wood and water, and enabling us to work a class of ores that have heretofore been unprofitable. This class of ores will average from $50 to $60 per ton, and can be extracted and worked so as to leave a handsome profit to the owner, when the flume is constructed.

The town lot fever is running high, and as soon as the irregular plain of some thousands of acres in extent adjoining the town is all located, jumping and movements for possession will be, paradoxically speaking, in order.

B.

What is Thought of Canning Trout.

The *Pacific Life* says that the experiment of canning trout is not likely to prove successful. It thinks the enterprise may not prove objectionable in the start, and be of temporary benefit, but the experience of other parts of the country where canning establishments have been tried, demonstrates that they are not the kind that will benefit regions with only a limited supply of fish. The Truckee river cannot meet the demands of an extensive cannery for more than two seasons. In the state of Maine the fish have become so scarce that the canneries are only putting up a limited amount, and may have to close altogether for want of material, though the finny tribe a few years ago was inexhaustible. The Truckee *Republican* thinks that the Truckee river cannot afford to have its circumscribed supply altogether ruined by the cupidity of one or two business firms.

A Bad Winter for Cattle.

J. C. Abbott, a prominent cattle man of Grant county, Oregon, arrived in Winnemucca on Saturday from the north. He told the *Silver State* that the past winter has been the most severe on stock ever experienced in south-eastern Oregon and northern Nevada. In Harney valley and on the north side of Stein mountain fully twenty-five per cent. of the cattle running at large have perished of cold and hunger. In Quin River valley, on his way here, he was informed that on H. H. McColley's and Colonel Hardin's ranges, 200 carcasses of dead cattle could be seen within an area of a few miles square.

A Close Call.

Mrs Morton was cleaning house this noon and had mattrasses, bedding, etc., piled up in the yard. By some means there was a fire started in the heap. John Belz discovered it as he came home to lunch, and as he lives next door and the wind was blowing a gale, he took a lively interest in extinguishing it. After consuming a bed and a few rods of fence it was put out. Mrs. Morton's face and hands were badly burned. If the houses thereabouts had caught fire, there would have been a great many buildings burned, probably including the new school house, which is just opposite.

Wind Storm.

A wind sprang up this morning and increased in a short time to a gale. Since 10 o'clock the air has been filled with clouds of dust and the chimneys howling. Although a storm seemed to be raging on the mountains, the wires were all working at noon to-day. The wind has been warm, but the dust it raised has been anything but agreeable.

PERSONAL

Dr. Hutchings is in San Francisco.

Charles Davis is spending a few days in Reno.

O. F. Lee, of Reno, got home from he East last night.

C. S. Varian, wife and youngest child, went below this morning.

Frank Bell has gone to Candelaria. There is talk of a telegraph line to that camp.

Gen. Bristow, ex-Secretary of the Treasury, went west on the express train last night.

Judge McKinney of Austin is in town. He will leave for Wadsworth to-night.

The party of Eastern railroad men who went west last week came back last night, and went to Virginia this morning. Their special car, the "Izaak Walton," is side-tracked here.

An Order to V. & T. Engineers.

Superintendent Yerington yesterday issued an order to all V. & T. engineers to withdraw at once from the Mechanics' Union, on pain of immediate discharge. Mr. Yerington yesterday said to a *Chronicle* reporter: "The company has been dictated to long enough by irresponsible parties, and is determined to stand it no longer. Our engineers belong to the national society known as the Brotherhood of Locomotive Engineers, and we pay them higher wages than the Mechanics' Union calls for. Therefore we claim there is no reason for trying to force them into this local society. I am satisfied that all sensible men in the community will sustain the company in its course. If we were trying to cut down wages of engineers it would be a different thing altogether, but we are not. No trouble is anticipated on our part. We have some men working in town here who belong to the Union, and we will not ask them to withdraw, but all engineers outside of them must quit the Union."

Ravages of the "Fifteen Puzzle"

The "Fifteen Puzzle" is now epidemic in Reno. It is raging among people of every occupation. It began in the Court House and spread insidiously all over the town. Many of its victims have appeared in the Justice's court. Wells, Fargo & Co.'s men have had it. The railroad men seem to have escaped so far. The puzzle has crippled the working force of nearly every store in the place. If a man complains of a lame back and sore eyes, the chances are that he has "Fifteen" pretty bad. No remedy has yet been discovered. "Fifteen" will run its course, terminating either in idiocy or delirium. The best course for the uninfected is to keep away from the infected districts. Don't look at the puzzle or handle it. Avoid coming in contact with any person known to have been near "Fifteen." The observance of these precautions may secure an immunity from "Fifteen," until the plague shall have subsided.

Instructive Books.

"Know Thyself" is quite as important in this age as in the days when the legend was inscribed over the door of the Grecian Temple. The reputation and fame of Prof. O. S. Fowler is unrivalled in his special line of philosophical thought, and his two recent productions, "Human Science" and "Creative Science," are exhaustive treatises upon the all-important topics of man's intellectual and moral development, and of his creative powers mental and physical. All of the secret workings of the great laws of Phrenology, Physiology and Psychology as applied to the individual man and woman and to all the varied adaptations of their mutual and sexual relations are here freely discussed and chastely explained. A. L. Bancroft & Co. through its subscription department, which embraces all the branches of knowledge, issue these important works through regular agents.

Items From the Truckee "Republican."

J. T. Rodgers, Superintendent of the Lake Tahoe railroad, is dangerously ill at Virginia City.

The saw mill at Dog Valley owned by the Crystal peak Lumber Co. was started up last week.

White fish abound in the river now, and are extensively sought after by anglers.

Charlie Burkhalter has gone to San Francisco to accept a very honorable and lucrative position in a business house.

Public Notice.

Notice is hereby given that John Hayes is not in my employ, nor has he been for the last year, nor ever will be again. And what is more, I have no agent taking orders for trees and plants, nor ever will have. So if any orders are taken through the country and filled with trees with dead roots, they will not be represented as filling my orders, for I shall take my orders myself.

We Can't Talk

Without showing the condition of our teeth. Every laugh exposes them. In order not to be ashamed of them let us use that standard dentrifice, SOZODONT, which is sure to keep them white and spotless. No tartar can encrust them, no canker affect the enamel, no species of decay infest the dental bone, if SOZODONT is regularly used. It is a botanical preparation, and its beneficial effect on the teeth and gums are marvelous, as it removes all discolorations, and renders the gums hard and rosy. D&W

I Wish Everybody to Know.

Rev. George H. Thayer, an old citizen in this vicinity, known to every one as a most influential citizen, and Christian Minister of the M. E. Church, just this moment stopped in our store to say, "I wish everybody to know that I consider that both myself and wife owe our lives to Shiloh's Consumption Cure." It is having a tremendous sale over our counters and is giving perfect satisfaction in all cases of Lung Diseases, such as nothing else has done. Bourbon, Ind., May 15, 1878. Drs. Matchett & France. JEWELRY

$25.00 worth for $15.00,

—AND A—

Solid Abyssinian Gold Watch

FREE! FREE!! FREE!!!

The above offer is genuine, although at first sight you would consider it impossible. We will explain. Since we first established our business here, March 1st, 1878, we have paid particular attention to the buying of Bankrupt and Auction lots of Jewelry and Watches often buying at as low as one-tenth their value, and in no instance have we paid over one-sixth the manufacturers' price. Since starting we have always been able to dispose of these goods in Chicago and through our regular customers throughout the country at nearly regular prices, as fast as we could procure them, but owing to the large number of failures among the heaviest dealers and manufacturers throughout this and other countries during the months of June, July and August (the time when the jewelry business is stagnant), we have now on hand an immense stock of the most desirable goods we have ever handled, and which we have bought at lower prices than ever before. In order to dispose of this entire stock in the most speedy manner possible, and make room for new ones which we shall continue to buy, we have hit upon the following novel plan:

We propose to give you a list of the most desirable of these goods, giving opposite each article its regular retail value, and sell to you at the rate of Five Dollars' worth for $1. For instance, on receipt of 50 cts. we will send you, POSTPAID, any article to the value of $2 50; on receipt of $1, articles to the value of $5, and so on throughout the entire list. Below we give a list of the most valuable of these goods.

Read What the Chicago Press Say of Us, And Send in Your Orders.

The Sentinel, of Chicago, Sept. 9, says: "We call the attention of our readers to the new advertisement of the Inventors' Agency, No. 116 E. Washington street, Chicago. What the Inventors' Agency agrees to do, they will do. The Sentinel has advertised for the concern since its first publication, and we have yet to hear of the first complaint against it."

The Chicago Express, Sept. 8, says: "The attention of readers is called to the advertisement of the Inventors' Agency, office and rooms located at 116 Washington St., Chicago. From personal inquiry and on the recommendation of the city press, we think our friends can do no better when wanting goods in that line. Give them a trial."

The American Stockman, Sept. 11, says: "We believe this institution perfectly sound and reponsible, and consequently persons need have no hesitation about sending for what they desire."

SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.
